Subject: Microsoft Settlement

Dear Sirs,

I am a US citizen, and I am opposed to the proposed settlement of the DoJ's case against Microsoft.

Although Microsoft has been found guilty of breaking the law, there is nothing punitive in the settlement. Microsoft must be punished for its illegal activities, and greatly discouraged from engaging in illegal activities in the future.

Because of this, I must urge you to reject the proposed settlement with Microsoft, and pursue more aggressive means to ensure justice for the computer-using population.

Sincerely,
Andrew T. Phillips
